SWITCH HOMES

Building Sustainable & Affordable Communities

We build our homes with all of our futures in mind.
Every decision was thoughtfully made with our environment and your families quality of life in mind.
In other words, your friends might be jealous.

The Two Year Old

1530sf • 3 bed / 2 bath

A two-year-old is kind of like having a blender, but you don't have a top for it. Have a 2 year old? This is a great one for you!

We've taken our already perfected "My mom says I'm cool", and added a few more bedrooms for your little rascals. We feel this layout is the perfect home to raise that family!
